EDUCATION

Bachelor in Computer Engineering
Instituto Superior Engenharia de
Coimbra
2018 - 2023

- Learning topics like Operative System architecture, OOP, Graphic Computation. Certified in Public Speaking by Speak and Lead.

Associate Degree in Software Development
Universidade de Aveiro
2016-2018

- Developed a X-CRM platform for a big automotive client during my curricular internship

SKILLS

I'm an experience engineer working with Python, PHP, Javacript/Node.js and C# (frameworks like Laravel and Express included). I've worked with relational and non-related databases (MySQL, PostgreSQL, MongoDB) As I'm always eager to learn something new I've learned other languages like Java, Typescript and I'm even into game development working and learning how to create games with Unreal Engine.

WORK EXPERIENCE

Tools Programmer

Funcom Sep 2022 - Now

- Develop and maintain game development tools to enhance the creation process.
- Collaborate with the team to identify workflow inefficiencies and implement solutions.
- Improve productivity by automating tasks and enhancing asset management systems.
- Provide technical support and troubleshoot issues related to tools and workflows.

Backend Engineer

7EGEND Jul 2021 - Sep 2022

- Collaborated with other team members during the projects releases to develop new features on REST services and web applications.
- Writing good documentation for frontend and backend projects where this part was missing

Fullstack Developer

BoldApps Nov 2020 - Jul 2021

- Collaborated with other team members during the development of a core software for a political party.
- Helped the team implementing a new development process while creating a package hub where we stored all of our private Nuget packages and forks.

Backend Developer

LOBA.cx Feb 2018 - Nov 2020

- Responsible for the quality assurance of the development team, validating the software produced and the output quality.
- Developed REST services and integrations for major clients as well as products for sectors like travel, automotive and communications.
